A Look into the Science of our Technology

The Heart of the Matter is the Aura Therapy Patch System!

by JACQUES BENVENISTE, M.D.

Life depends on signals exchanged among molecules (Biophotons). For example, when you get angry, adrenalin “tells” its receptor, and it alone (as a faithful molecule, it talks to no other) to make your heart beat faster, to contract superficial blood vessels, etc. In biology, the words “molecular signal” is used very often. Yet, if you ask even the most eminent biologists what the physical nature of this signal is, they seem not to understand the question, and stare at you wide-eyed. In fact, they’ve cooked up a rigorously Cartesian physics all their own, as far removed as possible from the realities of contemporary physics, according to which simple contact (Descartes’ laws of impact, quickly disproved by Huygens) between two coalescent structures creates

energy, thus constituting an exchange of information.

Molecules vibrate; we have known this fact for decades. Every atom of every molecule and every intermolecular bond the bridge that links the atoms and emits a group of specific frequencies. Specific frequencies of simple or complex molecules are detected at distances of billions of light-years, thanks to radio-telescopes. Biophysicists describe these frequencies as an essential physical characteristic of matter, but biologists do not consider that electromagnetic waves can play a role in molecular functions themselves. We cannot find the words “frequency” or “signal” (in the physical sense of the term) in any treatise on molecular interactions in biology, nor to speak of the term “electromagnetic,” use of which is

used in our technology.

This means that a molecular signal can be efficiently represented by a spectrum of frequencies between 20Hz and 20,000Hz, the same range as the human hearing or music. For several hundred thousand years, human beings have been relating sound frequencies to a biological mechanism: the emotions. Composers of background music for supermarkets or elevators are practicing neurophysiology. High-pitched rapid sounds engender lightness of spirit, high-pitched slow sounds, sweetness; sounds both deep and rapid awaken the fighting spirit, while deep, slow sounds invoke serious emotions, sadness and mourning.

These are fundamentally cerebral physical-chemical phenomena, triggered by defined frequencies.

“Setting the Professional Standard for Wellness”

continued on page 2

The Heart of the Matter is the Aura Therapy Patch System! (continued from page 1)

We do nothing more than this when we transmit pre-recorded molecular activities to biological systems.

Therefore, one may hypothesize that biological systems function like radio sets, by co-resonance. If you tune a receiver to 92.6 MHz, you tune in Radio-This, because the receiver and the transmitter vibrate at the same frequency. If we change the setting a little to, say, 92.7, we no longer receive that particular radio frequency.

These advances in understanding the **inmost** mechanism of molecular recognition and signaling do not overturn the science of biology, and even less those of physics and chemistry.

We have taken nothing away from classic descriptions, but only taken a step forward by adding to the present body of knowledge. This is the normal course of scientific progress, and there is no reason for it to provoke imprecations and anathema.

The electromagnetic nature of the molecular signal sheds light on many shadowy areas of biology. We can now understand how millions of biological molecules can communicate (at the speed of light), each with *its own* corresponding molecule *and it alone*, the basic requirement for the functioning of biological systems...and why minute

chemical modifications produce considerable functional consequences, something “structural” biologists are at a loss to explain. In deciding that only structures can have an action, biologists

waves, not with megahertz frequencies, which do not penetrate water. We have recently completed very simple experiments showing that a molecule at a normally active concentration does not

find themselves in a pre-Newtonian world where the movement of celestial bodies is described by Ptolemy in terms of epicycles.

What about water in all this? It is the vehicle for information. This cannot be avoided, *since there are 10,000 water molecules in the human body for every molecule of protein*. There is no problem with this either; a submarine communicates with its base via low-frequency electromagnetic

work in a medium devoid of water. Adding water is not enough to restore activity; it must be “informed.” In other words, when molecules trigger a biological effect, they are not directly transmitting the signal. The final job is done by per molecular water, which relays and possibly amplifies the signal. Sound is not directly created by a compact disc. The latter carries data, which is audible only after being amplified by an electronic system.

How does this relate to the Aura Therapy Patch System?

The AURA Therapy System is a series of twenty-eight non-Transdermal therapy patches. Each patch is uniquely made to **restore normal balance** in the human body utilizing digitally encoded information. They provide energy patterns that have been specifically programmed for particular health issues. By restoring these energy patterns, we can observe a positive change in people’s health and balance of the bodies energy.

The patches are programmed with completely natural frequencies with no negative side-effects. There is nothing synthetic in the therapy and there is no chemistry that passes through the skin. This is the same abundant energy that we find around and inside the healthiest people on earth.

.....
Jacques Benveniste, MD is not affiliated with Bio-Magnetic Systems, Ltd. Below are a few of his professional achievements:

- Discoverer of Platelet-Activating Factor (1970)
- Author of the controversial Nature article on the “memory of water” (1988)
- Director of Research at INSERM, Digital Biology Laboratory, Clamart, France

I have been so excited at using the Aura Patches. This past week, I was testing a client in Maryland that has had trouble keeping her sugar level down. She had made an appointment to meet with a doctor as she felt that it was serious. Her blood sugar level was 280 and she was not able to get it down for weeks. I asked her if she'd like to try the Enzymes DB patch. She put it on and within one hour her level went down to 140. She was afraid she'd lose it in the shower so she took it off that evening when she showered. The level went up to 170. Before bed, she put it back on and when she checked it in the morning it was consistently around 140. Within a few days, her level went down to the normal range and is staying there.

Thanks for such a great concept in healing.

R. Still, from Missouri

About two weeks ago my wife who is 75 years old, and has had recent carpal tunnel surgery woke up with extreme pain in her shoulder and wrist. We called the surgeon who had done this work, and soon as we could get an appointment with him would be in about 2 weeks. Since, I had heard of the Aura COMFORT/PAIN PATCH. I got in touch with you. You over-nighted the COMFORT PAIN PATCH and your Aura H-GH4 patch. I had been using a cold ice pack to reduce her pain. As per your instructions I put a COMFORT PAIN PATCH and H-GH4 patch under her arm and another of each at her wrist. The pain which kept her in bed till about noon was 50% reduced, the next day it was better. I changed the patches as you said. Now she can get up and do things around the house. I had doubts that the patch would work as quickly as it did. When she first woke with the pain, we phoned our nephew who is a neurologist, he said that it sounded like a pinched nerve or arthritis, and to get in touch with our surgeon. But now...I want to thank you for your prompt attention, the product works.

Thanks again,

David R. from Knoxville, TX

I am a Reiki Master/Teacher. I am also a Crystal healer. "Energy" is at the core of these healing systems. "Energy" is the core of all life. I thought I had a good handle on my personal energies. I was proven wrong by the Weight Management Aura Patches. I have been using these patches for 5 weeks now. I have lost 21 1/2 pounds in that time.

I have NO cravings for junk food.

I have NO cravings for alcohol of any kind.

I have found myself looking for healthy, nutritious food for both meals and snacks. I have been reaching for water instead of diet sodas. I think there is an Aura Angel inside of me making these choices! I cannot tell you the benefits I have been reaping. If anyone is even considering trying the Aura Patches, all I can say is, "Do not doubt the energy that these patches are empowered with."

I believe you have put an energized miracle into each patch.

Thank you,

Sue S. from Michigan

Update on New Programming Comfort/Pain Patch, has been improved!

We recently have upgraded our #6 Comfort/Pain patch by added a new frequency to the original program. The patch now contains a frequency that had been taken from a device known as the "Tens" machine. This new and improved patch has added additional benefit and relief to customers that have had aches and pain related from trauma. Several customers have reported a noticeable difference from the original patch and are getting faster results.

Who can benefit from this patch?

- Golfers
- Tennis players
- Body Fitness
- Athletes
- Joggers/Runners
- Construction Workers
- People recovering from surgery
- People recovering from an accident
- Analgesic pain
- Migraine pain

Research and Development is our Future!

EMR Technologies, Ltd. is the research and development arm of our company. Our facility has been recently certified by the State of Nevada as an environmental testing company. We are dedicated to our industry where we conduct bio-resonance applications and manufacture several different products utilizing proprietary bio-resonance and frequency technology.

EMR has developed a number of applications that have been turned into commercial products that are used in the nutritional supplement industry, health and wellness, as well as microchips to reduce harmful radiation in cell phones, and reducing toxin emissions in automobiles.

Aura Patch System™

aura

The Aura Patch is a small metalized energy patch that attaches to the body and presents a field of supportive and restorative energy back into the body's energetic field. The AURA patches are an energy delivery system. They provide specific energy patterns that are found in people with abundant good health. By restoring these energy patterns, we have observed a positive change in people's health. The patches are programmed with completely natural frequencies with no negative side-effects. There is no chemistry that passes through the skin. This is the same energy that is found inside the healthiest people on earth.

Cell Phone Battery Booster™

The Cell Phone Disk is a revolutionary discovery that will defend against electro-pollution from cell phones and mobile phones, and also enhances the battery energy for longer use between charges. The proprietary process enables the cell phone chip to emit neutralizing frequencies that correspond and eliminate harmful electromagnetic frequencies (EMF) and electromagnetic radiation (EMR) as well as improving battery life. The Phone chip prevents the body's energies from disturbances through environmental influences such as harmful EMF electromagnetic fields.

The Crystal Blue Air Chip™

The CBAC has been tested in Korea, Mexico and United States for gas efficiencies and improved toxic emissions. The chip uses a magnetic-like energy field, which raises the quantum coherent level of the energetic structure of petroleum. This conditioning increases the energetic structure of the fuel and neutralizes the toxic elements while octane and oxygen energetics are increased prior to combustion taking place. The result is a dramatic reduction in automobile smog emissions and an increase in performance, (both torque and horsepower).

Quality Assurance Seal™

The QA seals are used on nutritional supplements to enhance the products potential, and for the protection against the degradation of the ingredients. They ensure that the ingredients will be kept at their highest level of energy. By attaching a single seal to the bottom or side of the container, the ingredients within will receive specific energetic frequencies from the seals; thus keeping the ingredients fresher, thereby supporting the claims and the reputation of the product.

To place orders online, go to: www.aurapatches.com. EMR Technologies, LTD. is headquartered in Henderson, Nevada with sales offices in Orange County, California; Atlanta, Georgia and Mexico City, Mexico.
